Prologue

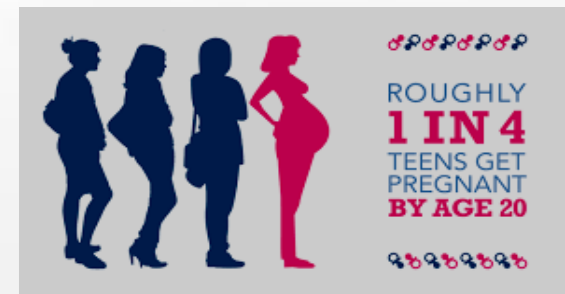

The primary aim is to help clarify the specific ways in which the community can take action to reduce adolescent pregnancy. The nation's teen birth rate is still higher than in other developed countries like the United Kingdom and Canada. Teenage pregnancy statistics show that nearly **1 out of 4 girls** will become pregnant at least once before the age of 20 year. Major purposes to substantially continue decreasing the rate of teen pregnancy coordinated strategies that equip youth with the knowledge, skills, and attitudes necessary to protect themselves against unwanted pregnancy and provide them access to reproductive healthcare are needed.

Why should you attend?

To spread awareness for knowledge improvement and understanding: Teenage pregnancy and its consequences.

What will its Covers?

Perceived benefits, proposed solution and associated risks.

REGISTRATION FORM

One day National Seminar
