8. **No. of Students Participants:** 62
9. **No. of faculty Participants:** 19
10. **(Short Description of the Event)**

- The 4th National pharmacovigilance week was celebrated at IICp from September 25 to September 2024, under the theme "Building ADR reporting for patient safety". This event aims to raise awareness about the importance of reporting ADR to enhance patient safety. A series of engaging activities, including rangoli making, Patient Counselling Logo and E-poster designing, and village visit was conducted to promote active participation and awareness. In this celebration 62 students, faculty members and village members are actively involved to contribute towards strengthening pharmacovigilance practice for better healthcare outcome.

11.Objective:

- ✓ To educate students about what pharmacovigilance is and why it is important for public health and safety.
- ✓ To spread awareness among the general public about adverse drug reactions and the importance of reporting them.
- ✓ Encouraging individuals to take a proactive approach in understanding their medications and reporting adverse drug reactions.
- ✓ Teaching students how to critically evaluate information about medications and their side effects.

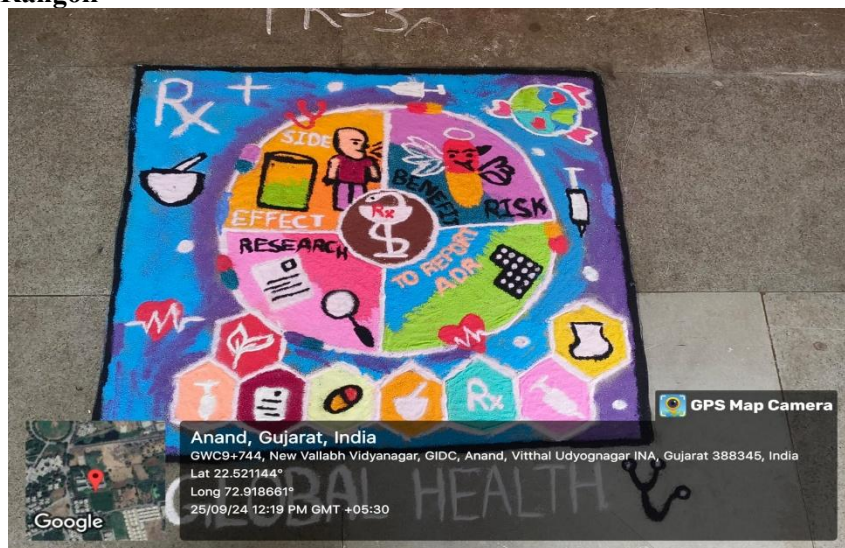

Outcomes:

- ✓ **Increased awareness:** enhanced understanding of ADR reporting and patient safety.
- ✓ **Active participation:** Engagement through rangoli, logo and e-poster making.
- ✓ **Improved patient counselling:** strengthened communication and counselling skills.
- ✓ **Community outreach:** educated rural population on drug safety through a village visit.
- ✓ **Skill development:** Enhanced Knowledge of pharmacovigilance practices.
- ✓ **Promotion of ADR reporting:** encouraged a culture of responsible medication monitoring.

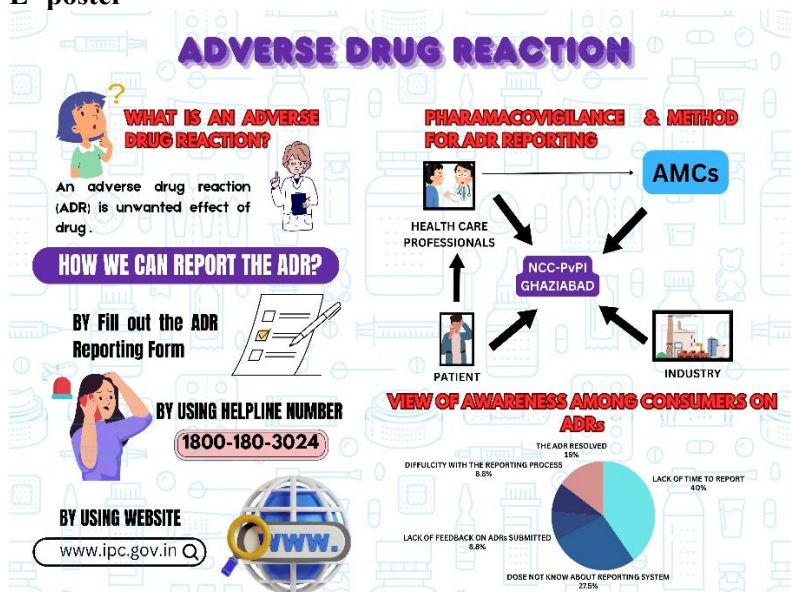

12. **Expenditure:** (if any otherwise NIL)
